QUEBEC NORTH SHORE & LABRADOR RAILWAY COMPANY

Q.N.S. & L. Ry. TARIFF No. F.18-T

RULES

DESCRIPTION OF GOVERNING CLASSIFICATION

Rule 5:— The term "Freight Classification" when used herein means STANDARD TRANSPORTATION COMMODITY CODE OF THE ASSOCIATION OF AMERICAN RAILROADS.

Aggregate of Separately Established Rates

Rule 10:— If the aggregate of separately established rates contained in tariffs produces a lower charge on a shipment than the rates published in this tariff from point of origin to final destination, than the lower of the tariffs is applicable. .

EXCEPTION 1:- Rates applying on freight in or on railway operated trailers cannot be used in conjunction with conventional railway equipment rates to defeat the published through rate.

EXCEPTION 2:- Will not apply on mixed carload shipments unless the aggregate of separately established rates to and from the same rate making point is applied in connection with all of the commodities in the carload.

▲ Articles Subject Freight Classification Rating

Rule 15:— Commodities herein subject to a released valuation will only be accepted at the rates or rating shown herein and released value must be entered on the bill of lading as specified in Rule 33 of Canadian Classification when not released to such lowest valuation. The commodity will not be accepted at the rates or rating published in this tariff, but may be accepted at the regular rating authorized in the Canadian Classification.

Cartage

Rule 20:— The rates named in this Tariff are exclusive of cartage charges.

Class vs. Commodity Rates

Rule 25:— The class rate at actual mass, subject to classification minimum mass, will apply if it makes a lower charge per shipment than the commodity rate and minimum mass published herein.

Consecutive Numbers

Rule 30:— Where consecutive numbers are represented herein by the first and last number connected by the word to or a hyphen, they will be understood to include both of the numbers shown.

If the first number only bears a reference mark, such reference mark also applies to the last number shown and to all numbers between the first and last numbers.

Dangerous Commodities

Rule 35:— This traffic is governed by the *Transportation of Dangerous Goods Act* 1992 (1992, c. 34) and *Transportation of Dangerous Goods Regulations* (50R/2001/286).

QUEBEC NORTH SHORE & LABRADOR RAILWAY COMPANY

Q.N.S. & L. Ry. TARIFF No. F.18-T

RULES (cont'd)

Definition of Words "or" and "and" as used in Description of Commodities

- Rule 40: -** In the description of the commodities named in this tariff (or as same may be amended) the word "or" is used where the description includes either or both of the descriptive terms between which it is used and the word "and" is used to couple the descriptive terms between which it is used.

Facilities at Stations

- Rules 45: -** Governed, as to additions and abandonments of stations, and, except as otherwise specified herein as to prepay requirements, changes in names of stations, restrictions as to non-acceptance or nondelivery of freight and changes in station facilities, by carrier's distance tables.

Intermediate Points

- Rule 50: -** The rates named herein, unless specifically indicated as competitive, are maximum rates and must not be exceeded in the same direction from or to any intermediate station in the direct line of transit.

Intermediate Switching or Transfer

- Rule 55: -** The joint rates named herein include all charges for switching tied to loading and unloading activities for one trip or other transfer services at intermediate interchange points on shipments handled through and not stopped for special services are such intermediate interchange points.

Reference to other Rules and Regulations

- Rule 60: -** Governed in addition to the rules named herein, by rules and regulations published in Q.N.S.&L. Ry. Tariff F.5.

Reference to Tariffs

- Rule 65: -** Whenever reference is made herein to any other publication it is intended also to include supplements thereto or reissues thereof.

Specific Rates

- Rule 70: -** Rates on commodities named in this tariff are specific and must not be applied on analogous articles. Articles for which commodity rates are not specifically provided for in this tariff will be subject to Class Rates governed by the STCC.

Freight Mixed Carloads

- Rule 75: -** Except as otherwise provided, when a number of articles for which the same or different ratings or rates are provided when in straight carloads are shipped at one time by one consignor to one consignee and destination, in a carload, they will be charged at the actual or authorized estimated mass and at the carload class or commodity rate applicable to each article. The carload minimum mass will be the highest provided for any article in the mixed carload, and any deficit in the minimum weight will be charged for at the lowest carload rating or rate applicable to any article in the mixed carload. (See exception).

EXCEPTION: - Deficit in minimum weight will be charged for at the HIGHEST carload rating or rate applicable to any article in the mixed carload when such deficit exceeds 25% of the actual mass of the shipment.
